

Culture Conditions for Various Stable Cell lines.

<u>Cells</u>	<u>Culture Media</u>	<u>Notes</u>
JY-EcoR	RPMI (+10%FBS, +Pen/Strep) +0.9mg/ml G418	EBV Immortalized B Cell line transduced with pWZL-neo-EcoR virus (these cells constitutively express the ecotropic retroviral receptor).
IMEC-EcoR	MEGM* (+BPE) +0.05mg/ml G418	Telomerase immortalized primary mammary epithelial cell line transduced with pWZL-EcoR virus (i.e. these cells constitutively express the Ecotropic retroviral receptor).

*MEGM media (Bio*Whittaker, Cat# CC-3051)[supplemented with bovine pituitary extract (supplied by vendor)]

G418 – Media Tech (General Stores - Cat # 4361) Make up in 1x PBS. Store at –20°C.

Puro – Sigma (Cat #P7255) Store at –20°C.

Hygro – Boehringer Mannheim (Cat #843555) Store at 4°C.
